SEARCHING PROFILES

1. Click on 'search' at right corner. This brings up a search box

2. Select search criteria (e.g Eye colour)

3. Choose most appropriate phrase from middle column

The screenshot shows a search dialog box titled "Search". It contains the text "Search for all records where all of the following are true:". Below this, there is a dropdown menu for "Eye Colour" and another dropdown menu for the operator. The operator dropdown is open, showing options: "contains", "contains", "doesn't contain", "is", "isn't", and "starts with". The "doesn't contain" option is highlighted in blue and circled in red. To the right of the operator dropdown are two small circular buttons, one green with a plus sign and one red with a minus sign. Below the operator dropdown is a text input field. At the bottom left, there is a "Results per page:" label followed by a dropdown menu set to "25". At the bottom right, there are "Search" and "Cancel" buttons.

4. Enter required search term*

The screenshot shows the same search dialog box as in step 3. The operator dropdown is now set to "is". The text input field to the right of the operator dropdown contains the word "blue" and is circled in red. The "Results per page:" dropdown is still set to "25". The "Search" and "Cancel" buttons are at the bottom right.

5. To search with more than one criteria select +

The screenshot shows the search dialog box with the "is" operator and the "blue" search term. The green plus sign button to the right of the search criteria is circled in red. A red arrow points from the plus sign button down towards the next screenshot.

The screenshot shows the search dialog box with two search criteria. The first criterion is "Eye Colour is blue" and the second is "Unique ID contains". Both criteria have their respective dropdown menus open. The "Results per page:" dropdown is still set to "25". The "Search" and "Cancel" buttons are at the bottom right.

6. Select number of results to display

Search

Search for all records where **all** of the following are true:

Eye Colour

Race

Results per page:

- 10
- 25**
- 50
- 100

7. Click on Search

Search

Search for all records where **all** of the following are true:

Eye Colour

Race

Results per page:
